SWEET CRYSTAL
GOT YOUR SIX

Z-ERO is one of the best comedy/horror
Zombie Films out today, Definitely made me
think & laugh at the same time. A lot of
humor indeed. I have this film on DVD. If
you love B-Movie Horror Films, you'll
indeed love this one.

DEFINING STYLE & TREND

I Study & Follow The Roots, Old-Fashion Style

**as I observe my client's Scalp,
Build from the ground up in the
angle of establishment like an
architect as you braid
& Sculpt the style.**

QUOTE:

**Let your Roots speak
to you.**

MEANING:

**Your scalp is a map
to your Roots;
Through every part
is an angle & design
leading directly to
your hairstyle.**

-Mandy Stylez

**Along the way, I celebrate each style
with content of achievement & as I
network & Research,
I define new Style & Trend.**

**In order to keep up with
your hair care,
you must have the products that
makes your Roots happy.**

**I highly recommend
All Natural Products
With Essentials like:**

**Tea Tree Oil, Olive Oil, Shea Butter,
Jojoba Oil.**

**The healthier, the happier,
the simplest!**
